

# SADE

## Scalable Architecture for Digital Editions

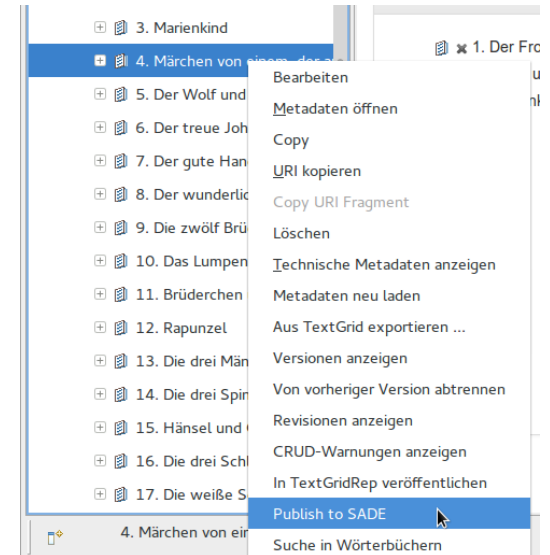

- **build** your own web portal to present your edition
- **preview** your data from TextGridLab on a website
- **publish** when you are ready

# SADE – Client (TextGridLab)

## Client: TextGridLab Plug-In

- Enables your Lab to publish to SADE
- Connects the Lab with the server component

# SADE - Server

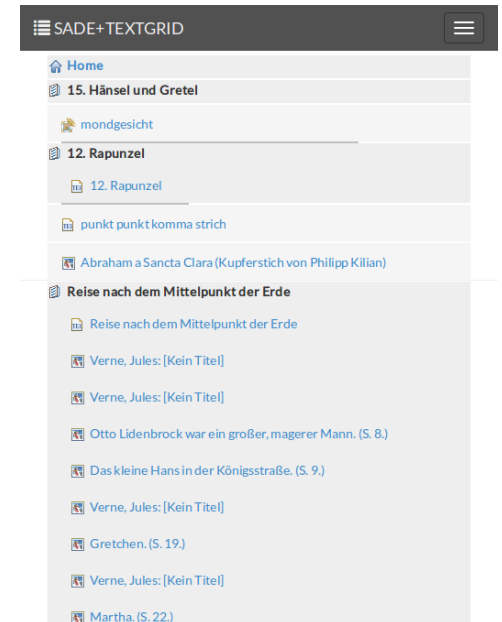

## Server: eXist-db with preinstalled Apps

- eXist-db: Collects and indexes your XML/TEI-Data
- retrieves images via TextGrid Image Server (digilib/IIIF)
  - aware of your user rights – so you can keep images private and still integrate them into the website
- simple configuration file

# SADE Template

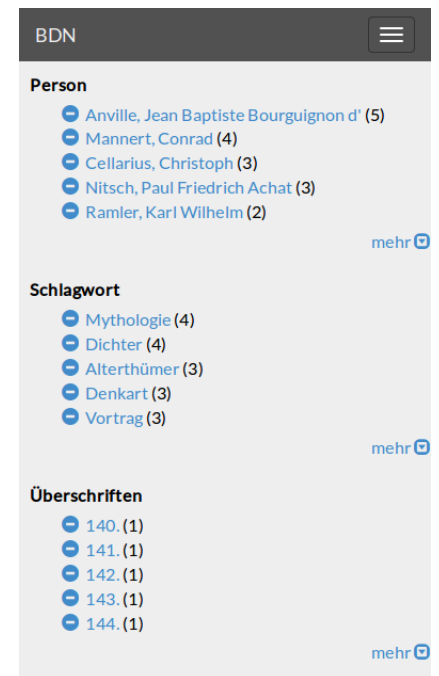

- **Professional Template**
  - mobile ready
- **Basic menu sidebar reassembles TextGridLab Naviagtor** 
  - menu structure is the same as in your TextGrid project

# SADE – Customisations

- Easy to customise top menu
- TEI XSLT style sheets already integrated
- Ready to use faceted search functions
  - Customise facets via simple config file

```
<facet key="persons" title="Person">  
  <xpath>tei:author</xpath>  
</facet>
```

# SADE – Text Image Links

- Use the Text Image Link Editor within the Lab and examine the results in an interactive view

# SADE Text Image Links

Editor: Max Teich  
Herausgeber: Elmar Mittler, Oliver Schmid

Quellenbeschreibung:

- Ort: Goettingen
- Institution: Universitaet Goettingen

**Transkription/Übersetzung**

Arcitenens spinas tenet ancas minutaque membra Atque remota locis et quod dat vesice

In pede piscis habet nervum nervique dolorem

Sum vexillum Jovis viridi depictus colore  
Dux ego stellarum dominus sum princeps earum  
In oriente pridem mihi domus in septentrione  
Sagittam cum piscibus altus mihi dedit in esse

**Lesefassung**

**Abbildung**

Beschreibung: Der Schütze  
Der Schütze hat dornige Kniee und verkürzte Glieder - und aus ihrer Lage versetzte, und was der Blase Schaden tut.

# SADE Examples

## Library of Neology

<http://bdn-edition.de>

## Theodor Fontanes Notebooks
